☆WARNING - Do not plug in the DPC-10 until you have completed the following steps.

1. Go back to the folder where you extracted the installation files and open the Driver folder.

2. Click on the file "Hitec BLDC Servo Interface" to begin the driver installation process.

3. The next screen shows the driver version and installation directory. Click "Install" to proceed. The installer will scan the system for existing drivers and install the most current version.

Connecting the DPC-10

☆WARNING - It is imperative that you use a USB 2.0 compliant cable to connect your DPC-10 to your computer. Non-compliant cables will cause erratic operation or may not work at all.

1. Plug the USB cable into your computer and the DPC-10. Windows will now locate the driver and install it automatically.

2. Once the driver is installed, launch the DPC-10 Software from the icon on your desktop.

3. To use the DPC-10 software, refer to the DPC-10 Software Manual in the directory where you extracted the downloaded file.

Help is available from the Hitec office through phone support and e-mail. Our US office is generally open Monday thru Friday, 8:00AM to 4:30PM PST.
